

# **We Beat the Competition...**

## **Easy to Use**

- Highly customizable
- Work on multiple customers at the same time
- Large easy-to-read forms and reports (no mini-fonts)
- Display as you type on all pull-downs speeds data entry
- Automatic site and customer reminders
- Popup reminders (date, site, customer) with no limit on number
- High speed posting of receivables (bulk, batch and credit card)
- Advanced multi-user environment to allow multiple people to view same information (never locked out)

## **Customizable**

- Fonts for the visually-challenged (larger or smaller, pick your own)
- Colors set by each user to make it easy to read
- Customizable work orders and invoices
- Grid layouts set by user so you see the data you want.
- Customer number (use your own codes)

## **Training Tools**

- Full set of videos
- Written *Getting Started* manuals
- Internet training
- On-site training available

## **Searching for Customer Information**

- Single or multiple criteria, e.g., street, state and name at the same time
- All entry forms have built-in searches to speed data management
- Display-as-you-type search results

## **Operational Monitoring Tools**

- Service Verification
- Stop-by-Stop Profit and loss
- Production Tracking
- Full set of productivity reports
- Profit and loss for each work order

## **Reports**

- 450+ built-in reports, all working the same way from a single location. No hunting around.
- Write your own reports using Access
- Export data to Excel and many other data formats

## **Complete Solution**
